Professional Summary

Enthusiastic and detail-oriented professional with one year of experience seeking a challenging role to leverage strong analytical, communication, and problem-solving skills. Proven ability to quickly learn new technologies and contribute effectively to team projects while maintaining a focus on quality and efficiency. Eager to apply acquired skills and contribute to the success of a forward-thinking organization.

Work Experience

DevOps Engineer

 2025-11-28 - 2026-05-26

LSEG

- Automated infrastructure provisioning and configuration management using Terraform and Ansible, resulting in faster deployment cycles and improved consistency.
- Collaborated with development and security teams to implement CI/CD pipelines using Jenkins and GitLab, enhancing code quality and reducing time to market.
- Monitored system performance and implemented proactive alerting using Prometheus and Grafana, minimizing downtime and ensuring service availability.
- Led the migration of legacy applications to a containerized environment using Docker and Kubernetes, improving scalability and resource utilization.
